### DETAILED ACTION

1. **Claims 1-18** are presented for examination.

#### *Election/Restrictions*

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. **Claims 1-4, 16** are drawn to a Data Processing Apparatus with copy protection, classified in class 713, subclass 200.
  - II. **Claims 5-15, 17, 18**, drawn to encrypted data receive/transmit with keys, classified in class 713, subclass 193.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions in Groups I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention in Group I has separate utility such as prohibiting a contents data move/copy depend on a history information in a memory. Invention in Group II has separate utility and requires encryption/decryption of the contents data utilizing encapsulated keys method. (See MPEP § 806.05(d).).
4. Because these inventions are distinct for the reasons given above and have *acquired a separate status* in the art as shown by their different classification, restriction

Art Unit: 2132

for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and the *search required* for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

7. A telephone call was made for Docket No. 450106-02418 to Mr. Williams S. Frommer, Registration. No. 25,506 on April 20, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

8. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

9. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
